Incident Address:	1882 W 1500 N		
Nearest Town:	VERNAL	County:	UINTAH
Highway:		Mile Marker:	
UTM:	(E) 621637 (N) 4481755	Land Ownership:	Private

INCIDENT SUMMARY

Caller bought his house recently and checked the condition of his well. He got a sample of well water and discovered that its color was a light neon green and it smelled like fuel. He threw the well water onto some weeds and was able to light it on fire. The well is located approximately 35 meters from his house and his house is about 200 yards from Ashley Creek. Caller said he wants to use the well to water livestock this spring.

ACTIONS TAKEN	Date	Agency	Action	Action Details
	2/12/2020	DEQ DE	Site Visit	pumped out well - about 4 gallons, smelled like kerosene, collected sample - LHD Infrared Spectrometer matched it to Undecane. followed up with well owner over next week, said there was about half a gallon two days later, then only a skim three days after that. concluded someone had dumped the chemical down the well sometime in the past and it was contained in the solid steel cased interval of the well. Advised well owner he could dispose of the chemical at the landfill in one gallon jugs.
