INCIDENT SUMMARY

From DOGM Report:

How Incident Occurred:

On a routine visit to a SWD well in the area, a SWD disposal line was leaking near a valve can off the side of the road at 40.26688, -109.802818. It was determined it is the disposal line for this well. Note the release did not occur on lease.

Other Detail:

Surface owner trustee where the release was found was notified. Kenny Farnsworth is the trustee. Method of Cleanup/Action Taken/Time Required for Cleanup:

Crew used a backhoe to isolate the line and dig for clean-up. Contaminated soils were collected and hauled to EEI South Myton Beach disposal. Soil samples will be taken before the hole is filled back-in. The hole must be filled in because it resides on the side of the road and the road needs to be safely traversed. Finley will continue to monitor the area and address any clean-up necessary.
