|               | 5/4/2020  | DEQ DE | Site Visit         | Met with EP staff onsite, they found more leaks after fixing the one by the pond and trying to pressurize the line with fresh water. They have decided to take the pipeline out of service and truck the produced water from the location to a disposal facility. |
|               | 4/30/2020 | DWQ    | Report received    | Received sampling report (DWQ-2020-011850)                                                                                                                                                                                                                        |
