INCIDENT SUMMARY

A buried injection line with internal corrosion developed a hole. Produced water and crude oil flowed to the surface, down the hill, and then soaked into the soil.

The crude oil has been cleaned up. The soil is expected to be sampled this week to determine if excavation is necessary.

Ben, reporting party, has informed BLM, Johnny Bown at 435-776-6707, and entered the spill into DOGM's online reporting system.
