Address:			

INCIDENT LOCATION

Incident Address:			
Nearest Town:	OURAY	County:	UINTAH
Highway:		Mile Marker:	
UTM:	(E) 613927 (N) 4437985	Land Ownership:	Private

INCIDENT SUMMARY

The property owner had someone come onto their property and dump oily drilling mud/sludge over an embankment and into the Green River. A portion remained on the bank and in a catch ditch for the water reclamation facility that is on the property and an unknown quantity entered the river. The material was still damp when the property owner arrived. The property owner stated that they could smell diesel from the material remaining on the bank but did not observe a sheen.

The property owner estimates the maximum total release at 200 barrels if the tire tracks that indicate two loads were two full truck loads of material. An estimated 10 barrels of material remains on the bank and in the catch ditch.

The property owner contacted the Uintah County Sheriff when they discovered the material. Two sheriff staff came to the scene and took photos around 11:30am. They stated that they could see the mud in the water of the Green River. It is unknown if there was a sheen observed. The property owner was told that they would file a report but does not have a report number and has not heard more.

CHEMICAL(S) REPORTED

Other: (describe) Drilling Mud 200 Barrels
