INCIDENT SUMMARY

A release of treated injection water was observed at 12:05 by workers for Scout Energy at the South Wells Draw well #2-9-16.

Approximately 44 Barrels of water were released from the well pad into a dry drainage. The line was isolated and the release was stopped. No other clean-up actions were performed.

The caller stated that he had already notified DWQ and had been instructed to call the notification hotline.

No storm drains or surface water bodies were impacted.
