### INCIDENT SUMMARY

Caller reported the release of 10 gallons of ethylene glycol. Release was due to corrosion in a flow line that flows from a well head to a tank battery. Release impacted soils within a farmer's field. A crew is en-route to excavate contaminated soils for off-site disposal at an approved landfill. Remedial activities have been coordinated with the property owner.

Location LAT/LONG: 40° 22' 7" N/ 110° 12' 49" W
